BUSINESS SUITE

What is MSV Business Suite™ ?

Not all businesses need a large expensive IT infrastructure and when budget can play a significant part in hindering access to IT solutions, a realistic option is needed.

The MSV Business Suite™ offers affordable and accessible technology solutions that cover all of the needs of modern entrepreneurs and growing businesses with security, flexibility, scalability and high performance as standard. With packages that include communications, infrastructure, productivity and support, all designed for small and growing businesses, you choose the services that best fit your business without the hefty price tag.

BUSINESS SUITE

IT Services You Can Trust

COMMUNICATIONS

Modern day business operates with a mobile workforce, international connections and round the clock sales. Communication by telephone, mobile and email is paramount and as a consequence, website functionality and continuous broadband connectivity is essential. Achieve unified services, remote access and real-time synchronisation with the MSV Business Suite™

INFRASTRUCTURE

Budget is a key consideration and a packaged SMB solution offering a shared or isolated IT infrastructure network is reliable and will seamlessly integrate with existing business processes. Secure storage, automated backups and WiFi provide flexible, scalable capabilities to keep people connected and the business productive.

PRODUCTIVITY

Secure access to familiar applications and business data from anywhere in the world is business-critical for many SMBs. Efficiently performing computers with audio-visual clarity is relied upon for communication and collabora-tion, business presentations and overall productivity as is protection against cyber threats and data responsibility such as GDPR legislation.

IT SUPPORT

IT support is available to suit the needs of all SMBs with an affordable, easy to access UK based 24/7 service desk and remote support to monitor IT networks, computers and servers. Onsite technicians can diagnose and fix issues on-demand and fully outsourced solutions remove the burden by centrally managing everything on your behalf and provide expert consulting.

How Can MSV Managed Help You ?

ENTREPRENEURS AND MICROBUSINESSES

Understanding what your business needs can be complex if you don't have the IT knowledge or budget to purchase the latest systems or software. The MSV Business SuiteTM is an affordable and accessible IT platform that maintains high performance and security as standard with added flexibility and scalability so you can hit the ground running.

SMALL AND GROWING BUSINESSES

Progressive business growth can be complicated, especially when many growing SMBs start out with consumer-facing IT equipment and individual user-specific software. The MSV Business SuiteTM has multiple options to allow quick and painless business scalability. Powerful packages are secure, efficient, provide unified user access, and a superb user experience.

ESTABLISHED COMPANIES

Large enterprise organisations have multiple IT users and often need a dedicated, isolated infrastructure for business-critical applications and business continuity. Integrated telephony communications, accounting systems and central administration enable various user access levels, secure backups, and bespoke requirements to get the job done.
