

## What is MSV Software ?

**Choosing the right system can be difficult, especially if there is uncertainty about how business will benefit and the differences between software.**

MSV Consultancy will determine the best solution by analysing gaps in IT skills and processes and recommend the most beneficial, efficient and value-adding applications.

IT software can be integrated within existing systems, available as a cloud application and accessed remotely. Transparent pricing structures offer a number of affordable options, including an upfront, one-off payment or a set monthly fee.

**Backed by  
24 hour  
UK support**

## MSV Software Partners

We love Citrix Files because it provides true business-class data security for mobile users while maintaining total IT control. Your team or clients can access, sync, and securely share files from anywhere, on any device.

SISCIN is a File Analysis and Archiving solution hosted in Azure. It's a single dashboard for full visibility of your entire file server data. Giving organisations the performance and scalability of the Cloud with their existing server infrastructure.

Over the last three decades, Microsoft has consistently transformed the way that people live, work, play, and connect through great technology. We are driving advances in cloud computing, developing new ways for people to interact with technology at home, at work and on the move, while transforming education and public services and supporting the UK economy.

Founded in 2006, Veeam is the leader in intelligent data management for the Hyper-Available Enterprise. Today, we have more than 307K customers worldwide, 57,6K channel partners, and offices in more than 30 countries. At Veeam, we bring greatness every day.

Exclaimer Signature Manager is great because it's a signature management solution designed for centrally adding professional email signatures to all emails processed by Microsoft Exchange server or Office 365 regardless of device.

Ultimate migrator is awesome because it manages migration projects between a wide variety of storage platforms including Office365, Microsoft Exchange, Enterprise Vault, PST Files, Mimecast, Symantec.cloud, MSG files and Public Folders.

At Citrix, we focus on a single driving principle: making the world's apps and data secure and easy to access. Anywhere. At any time. And on any device or network. We believe that technology should be a great liberator. Freeing organizations to push the limits of productivity and innovation. Empowering people to work anywhere and at anytime.

Nutanix makes infrastructure invisible, elevating IT to focus on the applications and services that power their business. The Nutanix Enterprise Cloud Platform blends web-scale engineering and consumer-grade design to natively converge server, storage, virtualisation and networking into a resilient, software-defined solution with rich machine intelligence.
